Presents:

Who i am because He IS

A solo exhibit by
Vonbethe

Vonbethe's acrylic paintings are grounded in themes of worship, healing, and identity. Her art flows from a journey across British Columbia, India, and Ontario—shaped by trauma, faith, and transformation. Each canvas reveals a gentle strength, a tender echo of the Spirit, and the deep peace of finally finding home. **Note:** A description of each piece will be available in the gallery or online (Follow the QR codes).

Landscapes of Utterance

This contemplative collection reflects Vonbethe's spiritual **connection to land** and the healing presence of God through creation. Each landscape is painted with a quiet reverence—brushstrokes shaped by emotion and prayer. In expressing the majesty and intimacy of nature, the artist found restoration, hearing God's voice through rivers, mountains, and stillness.

Rhythms of Peace

Vibrant, story-driven, and full of charm, this series draws from Vonbethe's time immersed in **Indian culture**. Inspired by folk traditions and daily life, the works weave joy, memory, and sacred reflection. Her tender approach to colour and character speaks of healing and belonging—where humour, warmth, and worship dance together on the canvas.
